

Hostel

This module of College Management Software takes care of total management of hostel. Hostel application form is provided to enter student details at the time of joining to hostel and daily attendance of students can be maintained. The details of students residing in hostel can be tracked and managed. Hostel information, blocks information, room information can be maintained. Accessories like beds, cots etc. information can be maintained. Fee management like mess fee etc. can be done. The details when the students change from one hostel to another hostel or change block or room can be maintained. A student can vacate the hostel if there are no dues.
